Email: [siwon.ryu@rice.edu](mailto:siwon.ryu@rice.edu) | Website: <https://siwonryu.com> | LinkedIn: [linkedin.com/in/siwon-ryu](https://www.linkedin.com/in/siwon-ryu)  
Phone: +82-10-3369-6933, +1-213-304-2931 | Date of Birth: Jan 04, 1991

## Research Fields

---

Econometrics; Program Evaluation; Causal Inference; Network Economics; Health Economics

## Education

---

Ph.D. Economics, Rice University, Houston, TX, US	May 2025 (expected)
M.A. Economics, Seoul National University, Seoul, Korea	2020
B.A. Economics, Kyung Hee University, Seoul, Korea	2017

## Honors

---

John R. Kelly Graduate Student Teaching Prize in Economics, Rice University	2023
Robin C. Sickles Award for Best Performance in Qualifying Exams, Rice University	2022
Maria Esther and Carlos Linares Award for Best Performance in First-Year Courses, Rice University	2021
Graduate Fellowship, Rice University	2020-Present

## Working Papers

---

1. **“Causal Effects of Treatments with Network Changes”** (Job market paper)  
**Abstract:** Recent empirical studies emphasize the importance of indirect, or spillover, effects in program evaluation. Most studies assume that the underlying network is exogenous, fixed, or unaffected by the intervention. However, empirical evidence indicates that the treatment can also have significant network effects. This paper studies the identification and estimation of causal treatment effects while explicitly considering possible causal changes in the network resulting from a program. The main finding is the decomposition of the causal effects into two distinct components: the treatment effect when the network remains unchanged and the effect when the treatment alters only the network structure (network effect). This result enhances our understanding of policy/program mechanisms by considering counterfactual scenarios where the network is either altered or remains unchanged due to the treatment. The proposed method applies to both randomized experiments and quasi-experimental designs with parallel trends. A estimation procedure for causal effects and their decomposition is proposed, and its performance is evaluated through Monte Carlo simulations. The methodology is illustrated using data from a program offering savings accounts. The empirical results show that total direct effect is small due to offsetting positive treatment effects and negative network effects.
2. **“Local Average Treatment Effects with Imperfect Compliance and Interference”** (Under major revision at *Journal of Econometrics*)
3. **“Causal Mechanism with Interference”**

## Work in Progress

---

1. **“Heterogeneous Parental Labor Supply Responses to Children’s Severe Health Shocks: Evidence from Administrative Data from South Korea”** with Jungmin Lee and Hyuncheol Bryant Kim
2. **“Financial Development and Trade Network Formation”** with Daeun Bae

## Teaching and Research Experience

---

<b>Teaching Assistant, Rice University</b> — Econometrics I (G), Econometrics II (G)	2021-Present
<b>Teaching Assistant, Seoul National University</b> — Econometrics (G), Topics in Econometrics (G)	2018-2019
<b>Teaching Assistant at Kyung-Hee University</b> — Macroeconomics I (UG), Macroeconomics II (UG)	2015
<b>Research Assistant with Professor Yoon-Jae Whang, Seoul National University</b>	2018-2020
<b>Research Assistant with Professor Jungmin Lee, Seoul National University</b> — <i>“Establishment The Database for The Socio-Economic Level of Korea”</i> using Database of Korea National Insurance Service (NHIS)	2018-2019
<b>Research Assistant with Professors Jungmin Lee, Hyuncheol Bryant Kim, Jisoo Hwang, Seoul National University</b> — <i>“Job Displacement and The Economic, Health Outcomes”</i> using Database of Korea National Insurance Service (NHIS)	2019-2020
<b>Science Korea Research Assistantship, Korea Research Foundation</b>	2019-2020
<b>Brain Korea 21 Plus Research, Seoul National University</b>	2018

## Professional Experience

---

Research Assistant, Korea Institute for Industrial Economics and Trade (KIET)	2014
---	------

## Conferences and Seminars

---

Brown-Bag seminar, Rice University	2022, 2023, 2024
Texas Econometrics Camp Conference	2024

## Skills

---

<b>Programming:</b>	Matlab, Stata, Mata, SAS, SAS-IML, R, Python, Julia, SQL
<b>Others:</b>	Git, HTML&CSS
<b>Languages:</b>	English (Fluent), Korean (Native)
